

# giclée pricing

**What is a giclée? In short, it is an archival print made with extremely high quality printers, using archival inks on archival papers.**

## LONGEVITY / ARCHIVABILITY

All of our giclée prints are created with archival inks on archival papers. Print light-fastness or longevity is rated depending on the media. Most media types are fade resistant to 80-200 years. Longevity is rated based on archival practices, including archival matting, framing, and glass. Usage of non-archival materials will compromise print longevity.

## STANDARD MEDIA

Matte Paper	\$10/sq.ft.
Semi-Matte Photo Paper	\$10/sq.ft.

## TRADITIONAL MEDIA

WATERCOLOR PAPERS	
Crane Coldpress	\$13/sq.ft.
Somerset Velvet Coldpress	\$13/sq.ft.
Ultrasmooth Hotpress	\$13/sq.ft.

CANVAS	
Matte Canvas	\$13/sq.ft.
Glossy Canvas	\$13/sq.ft.

All giclée prints are run on rolls of varying sizes. Sheet papers (usually thicker and heavier) may be special ordered upon request. Not all surface and media types are available in sheets (and not all sheet papers have roll equivalents).

Don't see what you're looking for? Just ask!  
We'll find it for you!

## SPECIALTY MEDIA

PHOTO PAPERS	
Ilford Gold Fibre Silk	\$18/sq.ft.

WATERCOLOR PAPERS	
Hahnemühle Torchon	\$18/sq.ft.

Other specialty papers available upon request. Additional charges may apply.

## EARTH-FRIENDLY MEDIA

Hahnemühle Bamboo	\$18/sq.ft.
-------------------	-------------
